Gut Health Quiz

This pre-challenge quiz is intended for informational purposes only and provides a general overview of some factors related to gut health. Individual experiences and needs may vary. This quiz is not a diagnostic tool and does not encompass all aspects that could influence gut health. It should not be used as a substitute for professional medical advice, diagnosis, or treatment. If you have concerns or symptoms related to your gut health, always consult with a healthcare professional (that would be me or your doctor.) Your health should always be the primary focus, and personalized medical advice is invaluable in addressing individual needs and concerns. With that out the way, let's get stuck in!

Answer ALL 10 Questions

Gut Health Quiz

1.

How often do you experience bloating?

- A) Almost never
- B) A few times a month
- C) Several times a week
- D) Daily

Scoring:

For each question:

Give yourself 4 points for every A answer.
Give yourself 3 points for every B answer.
Give yourself 2 points for every C answer.
Give yourself 1 point for every D answer.

Results:

36-40 points: Your gut health seems to be in good shape! Continue with your habits, and always stay informed.

25-35 points: There might be some room for improvement in your gut health. Consider incorporating more fiber-rich and fermented foods in your diet, and remember to stay hydrated.

15-24 points: Your gut may need some attention. It might be beneficial to consult with me one-to-one or with your doctor about your symptoms and consider making dietary changes.

10-14 points: It's essential to prioritize your gut health. Consider consulting with me or your doctor to get personalized advice and recommendations.
